

DIE SETS '38' SERIES

'38' Series Die Sets

Suitable for all '12 tonne' hydraulic crimp tools in the Utilux range

Utilux crimping dies for aluminium and copper connectors are precision engineered from EN26 high tensile steel and oil hardened, ensuring long life and minimal die wear. Each hexagon die set is engraved with "Utilux" on one of the die faces, and the die part number on the other, leaving an indent on the crimp for easy inspection and verification.

The range of dies includes:

- Hexagonal die sets for precision crimping of copper and aluminium connectors
- Nest and indent die sets for special aluminium applications
- Special 'steel' dies for crimping steel sleeves

The selection of the die type required depends on the connector to be crimped, and the tool to be used.

Special size are dies made to order

Conductor Size mm ²	Hydraulic Tools - Hexagonal Dies				
	Copper Conductors		Aluminium Conductors		
	A/F mm	Catalogue Reference	A/F mm	Catalogue Reference
