

ED JUNIOR DYNAMOMETER

AWT05-506317 (ED Junior)

The EDJunior dynamometer gets straight to the point—apply a load; take a reading. Its Spartan design is a direct response to industries that have wanted an extremely well-built instrument that could be relied upon for simply, yet critical measurements of weight and force.

- ♦ 7:1 safety factor for all capacities
- ♦ High strength, low weight
- ♦ Long lasting battery operation
- ♦ The Dillon SAFTKEY control
